About us

LARFI Petroleum Trading L.L.C. was born from a simple idea: the energy sector can, and should, work better for everyone. Seeing the need for dependable, transparent supply, we set out to change how petroleum products are traded and used.

We pair decades of combined industry expertise with data-driven practices, to make trading more efficient, more accessible and more sustainable. From crude oil to refined products, integrated logistics and market intelligence give our partners a clear view of every deal.

Our values

Sustainability · Transparency · Customer partnerships · Regulatory compliance

How we work

Reach out. Tell us the product, the volume, the delivery window and the port.

Review. We study the request and reply within 48 hours.

Validation. Documentation exchange, compliance checks and alignment on terms.

Contract. Terms are agreed and the contract is signed.

Delivery. We coordinate the cargo from the loading port to delivery, with documents and tracking.

What we trade

Crude oil

We monitor global markets continuously to position crude cargoes and respond quickly when conditions change.

Spot & term · Brent / WTI

Refined products

Gasoline, diesel and heating oil, with hedging to manage price volatility for us and for our clients.

EN590 diesel

Natural gas

Traded on short- and long-term forecasts, with futures to lock in prices and direct contracts with producers and consumers.

LNG · spot & term

Jet fuel

Supply for airlines and airports, with trading decisions kept in line with delivery capacity.

Jet A-1 · into-plane

Lubricants & greases

Lubricating oils and greases for industry, shipping and transport, in bulk or packaged.

Drums · IBC · bulk

Bitumen & asphalt

Paving and industrial grades for road construction and waterproofing.

Paving · industrial

Compliance

Know your counterparty: Identity and ownership checks before any transaction.

Sanctions screening: Counterparties, vessels and cargoes checked against applicable sanctions lists.

Traceability: A documented chain from loading port to delivery.

Pollution prevention: Cargoes are handled under the international rules on oil pollution from ships (MARPOL), at loading and at delivery.
